EDUCATION

NOVA SCHOOL OF SCIENCE AND TECHNOLOGY — **LISBON, PORTUGAL**

- Integrated Master of Engineering in Computer Science — SEPTEMBER 2020 – OCTOBER 2025
- Semester abroad at Wrocław University of Science and Technology, as part of the ERASMUS+ program

ESCOLA SECUNDÁRIA ARTUR GONÇALVES — **TORRES NOVAS, PORTUGAL**

- High School Graduate, Science and Technology – GPA: 18/20 — SEPTEMBER 2017– JULY 2020
- Erasmus+ Project in Sicily, Italy

PROFESSIONAL EXPERIENCE

CRITICAL TECHWORKS (BMW GROUP) — **LISBON, PORTUGAL**

Full-stack Developer – Java / Angular — NOVEMBER 2025 – Present

- Developing and maintaining an automotive logistics application covering parts, suppliers, processes, reporting, and traceability from production to the assembly line.
- Building full-stack solutions with Java and Quarkus on the backend and AngularJS on the frontend, using technologies such as PostgreSQL, SQL, Kafka, Docker, and Liquibase in a Scrum environment.
- Applying engineering excellence practices, including unit, integration, system, and end-to-end testing in Java with JUnit and AssertJ, Playwright in Angular, peer reviews, CI/CD, and continuous code quality analysis with tools like SonarQube.

3CKET — **LISBON, PORTUGAL**

Full-stack Developer — OCTOBER 2023 – JUNE 2024

- Developed a cross-platform mobile app (Android/iOS) using **Flutter** and **React** for an administrative back-office system, enabling around 3,000 Lisbon School of Medicine students to explore resources, campus activities, and purchase event tickets.

OUTSYSTEMS — **LINDA-A-VELHA, PORTUGAL**

Software Developer Intern – Summer Internship — AUGUST 2023 – OCTOBER 2023

- Developed and implemented an internal project management tool, integrating **Asana** and **Jira** via **REST APIs** to optimize workflows and backlog visibility.
- Automated sprint planning and introduced an availability submission system, significantly improving resource allocation and efficiency.
- Collaborated closely with stakeholders to gather requirements, created user stories, and ensured accurate role-based system access.
- Achieved "**Associate Reactive Web Developer**" certification, demonstrating proficiency in OutSystems development.

BEST (BOARD OF EUROPEAN STUDENTS OF TECHNOLOGY) — **ALMADA, PORTUGAL**

IT Department Member — OCTOBER 2022 – JULY 2023

- Organized technology workshops, facilitating the sharing of different technologies and computing concepts to more than 100 organization members.

RELEVANT PROJECTS

MASTER'S THESIS - *VERTICAL FEDERATED LEARNING IN SATELLITE CONSTELLATIONS FOR LOW EARTH ORBIT*

- Developed a communication-efficient Vertical Federated Learning framework tailored for Low Earth Orbit satellite constellations, addressing the unique constraints of satellite-based networks in distributed machine learning applications.

UNIVERSITY APPLICATION DEVELOPMENT - BACHELOR'S FINAL PROJECT (5-MEMBER TEAM)

- Collaboratively engineered a comprehensive university application featuring user registration, login, Google Maps-guided orientation, real-time university news, a student schedule system, group chats, and role-specific features for professors, students, and directors.
- Integrated Google App Engine, Google APIs, Google Cloud Storage, Datastore, and Firebase, utilizing a Java backend and Flutter (Dart framework) on the frontend for seamless functionality and performance.

COMPUTER SKILLS & TECHNOLOGIES & LANGUAGES

Java (Advanced), **JavaScript/Typescript** (Advanced), **Git** (Advanced), **Flutter** (Intermediate), **C** (Intermediate), **Python** (Intermediate), **Google Cloud Platform** (Intermediate), **Blender** (Beginner), **SQL** (Beginner), **R** (Beginner);
Portuguese (Native); English (Advanced).
